

Idaho Dairy Cattle Evaluation and Management Handbook

Purpose

To provide a competitive event for agricultural education students, emphasizing skills in dairy cattle evaluation, selection and dairy herd management.

Objectives

- To provide a practical experience for agricultural students with an interest in dairy cattle, that will serve them well in industry positions or in management of a modern dairy herd.
- To develop students' skills in observation, analysis and communication.
- To provide experience in the evaluation of dairy cattle type, production records and dairy herd management.
- To encourage agriculture instructors to seek assistance from various resources in the dairy industry. (Examples: dairy breed associations, artificial breeding organizations, state extension dairy specialists, state DHI Associations, dairy equipment manufacturers, local dairy farmers and breeders, etc.)

General Rules

- 1. Four persons will constitute an official team for the Dairy Cattle Evaluation Event. However, only three of the individual scores will be used in the team score tabulation.
- 2. No alternates will be allowed in this event.
- Participants in need of special accommodations (disability or other health issues) must submit the Idaho State FFA
 Career Development Events Request for Special Accommodation Application found at the end of the General
 Rules and Regulations at least one month prior to the event.

Format and Scoring

- 1. A 10-minute time limit will be allowed for the placing of each dairy class.
- 2. Classes should include:
 - a. 200 pts. Four classes of cows will be placed on type. All classes will be placed using the Standard FFA Placing Card.
 - b. 100 pts. Two classes of dairy heifers will be placed using the Standard FFA Placing Card.
 - C. 100 pts Oral reasons will be required on two classes. One set of reasons on a class of cows and the one set on a heifer class. The event coordinator will designate the class prior to the beginning of the event. Each team will be divided into groups (A, B, C, D for example). Each group will then give their reasons to the assigned reasons judge. Participant may be questioned by the reasons judge. Each member of a single team will be assigned to a different reasons taker so that no two team members present reasons to the same reasons taker.

Five alternate members not participating in the official event will give reasons to reason takers in order to calibrate their scores prior to judging official participants in the CDE.

d. 50 pts. Ten questions will be answered using a dairy herd record evaluation data sheet to analyze individual cows. Each question will be worth 5 points. Students will bubble their answers in Herd Record 1-10 on the scansheet.

Reason Tir	ne Frame with 4 Judges	s (EXAMPLE)
	Time 10 minutes per cla	ass
Rotation		
1	Class 1	Heifers
2	Class 2	Heifers (Reasons)
3	Class 3	Reasons prep
4	Class 4	Reasons (heifers)
5	Class 5	Cows
6	Class 6	Herd Records
7	Class 7	Cows
8	Class 8	Cows
9	Class 9	Cows (Reasons)
10	Class 10	Reasons Prep
11	Class 11	Reasons (Cows)

TIE BREAKERS

A combined reasons score will be used to break any ties in the event. In the event that a tie still exists, class 1 of the event will be used as a second tie breaker.

AWARDS

- 1. Awards are presented to teams as well as individuals based upon their rankings. The top 10 teams and individuals will be recognized. Individuals from 1st through 5th place will receive medals. Teams from 1st through 5th place will receive plaques.
- 2. Certificates will be awarded to all participants in the dairy handler event. FFA award pins will be presented to the top 3 individuals and the top 5 will be announced. The top dairy handler will qualify to participate in the National FFA Dairy Handlers Event.

Acknowledgement

The United Dairymen of Idaho are sponsors of the Dairy Cattle Evaluation and Management Career Development Event through the Idaho FFA Foundation.
